Dear Raven Families,

As our state legislators and representatives work to provide a balanced budget for the State of Alaska, there are some real concerns regarding how the proposed budget cuts may impact education. On behalf of the Yukon Koyukuk Regional School Board, we want to assure our families that during these uncertain times, Raven will continue to provide the same allotments, supports, and services to our families.

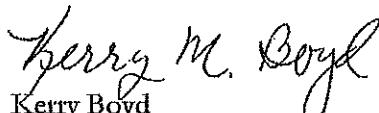

Raven recognizes that our families are already being fiscally responsible providing a quality education to your students. As homeschooling families, we know how important continuity is to ensure each student's success.

The Yukon Koyukuk School District Regional School Board and administrative team will continue to advocate on behalf of all students in our state. Providing quality services, instruction, and choice in education is essential to our youth.

Thank you to the families who have already re-enrolled for the 2019/2020 school year. Your commitment to our school provides Raven a solid foundation and allows us to plan forward for another successful year for our homeschooling families.

If you have questions or concerns, please don't hesitate to contact us or reach out to your local office.

Sincerely,

Kerry Boyd
Superintendent YKSD

Andrea Cottrell
Raven Homeschool
Director of Distance Education

The mission of the Yukon-Koyukuk School District, in active partnership with its families and communities, is to provide our students with the skills and knowledge necessary to become contributing members of their families, communities and society.
